- All work passes are subject to approval by MOM.
- FDWs above 50 years old can only renew their work permits until they reach 60 years old.
- The maximum period of employment for Work Permit holders will vary according to the sector wise specific requirements.
- Use MOM's Self-Assessment Tool (SAT) (<https://bit.ly/3thlQIW>) before applying or searching for a job in Singapore to assess your eligibility.
- Using SAT also does not guarantee the work pass as it is merely an indicator assessment.
- The above is based on the available source of information and analysis of using SAT for illustration purpose.
- Visit MOM's website for more updated Guidelines.
